

TETHERED AIR BALLOON IN
PAKISTAN

The Pioneers of Tethered Air Balloon in Pakistan SeaAerial

The introduction of Tethered Air Balloon in Pakistan is an effort of SeaAerial. A company dedicated to providing revolutionary promotion solutions at sea and in the air.

SeaAerial is a project of FHR Holdings and Harley Willington Group. Our aspiration is to ensure unique leisure and amusement possibilities to the people of Pakistan while simultaneously providing promoters and marketers a chance to join our journey...

Kick starting our vision with the first ever flying Tethered Balloon of this region. We welcome you to the club/league of big cities with big balloons in the sky.

Tethered Balloon Beyond Advertisement A Revolutionary Concept!

The flying tethered balloon is more than just an advert, it is a promotional tool.

A giant balloon, both mobile and spectacular enough to generate enormous interest, together with plenty of excitement.

The opportunities for product support are endless for promotion and entertainment.

A tremendous communication tool, chosen by numerous advertisers all around the globe.

Safe & Sustainable A Truly 21st Century Solution

Flying tethered helium balloon of 8.5 meters diameter, perfectly environmentally friendly, totally silent thanks to its permanently inflated helium envelope and a hydro-electric winch...the system consumes no more energy than an elevator and is completely noiseless!

Eye-catching from a 10km visible distance, a joy ride for 2 passengers at 90 meters to view beautiful scenery, and a perfect solution of advertisers with an advertising area of surface up to 150m², a sustainable easy to operate and maintain solution with no pollution.

User Friendly

Highly Mobile

The Balloon needs two or three operators depending on circumstances. It can be set up and packed away in a few hours. The trailer can easily be shipped around the world.

Compact

The balloon needs a space of only 20 metres (60 ft) diameter, so it can fit into any town centre park or parking lot. Your Balloon will always be where you want it.

Guaranteed Performance

Unlike hot air balloons the tethered balloons remain inflated 24 hours, 7 days a week, and can fly passengers all day, weather permitting. For the first time in lighter than air advertising, you can guarantee the sponsor it will happen.

Durability

Minimal helium loss, proven product resistance.

Mylau balloon,
7,5 years of operation without deflation.

Berlin balloon,
Envelope repainted twice since March 2000.
Winch and gondola since April 1998.
10 years of operation.
