SMART MIRROR

A Smart Mirror is a... Picture taker, Ice breaker, Memory maker. It is a perfect addition to any party or event. Our photo booth is a people magnet. Your guests grin and guffaw for the camera. It's an entertainment centerpiece for your party that pays the fun forward by allowing your guests to print, text, email and share their photos instantly. Add costumes or a personalized border for extra fun and memorability

Make any Event Special

Corporate Events

School/College Events

Sports Events

Wedding / Anniversaries

Parties

Want to add some
21ST CENTURY PIZAZZ TO YOUR EVENT?

Life without Smart Mirror:

Let's face it. As the event organizer, you don't have time to take photos. A photographer roaming around is going to capture people chewing, talking and drinking... nothing new in that!

Enter Smart Mirror:

Your guests will take photos when they are ready. Everyone gets a souvenir of the event as guests can print, text, email or share photos instantly. The event organizer gets a gallery of all images at the end of the event. To make matters even better (because that's what we're here to do), you can add a custom border to all the photos to commemorate the event. Nothing gets your guests talking and mingling and laughing like Smart Mirror. It's an instant connector and friend maker.
